Selection process

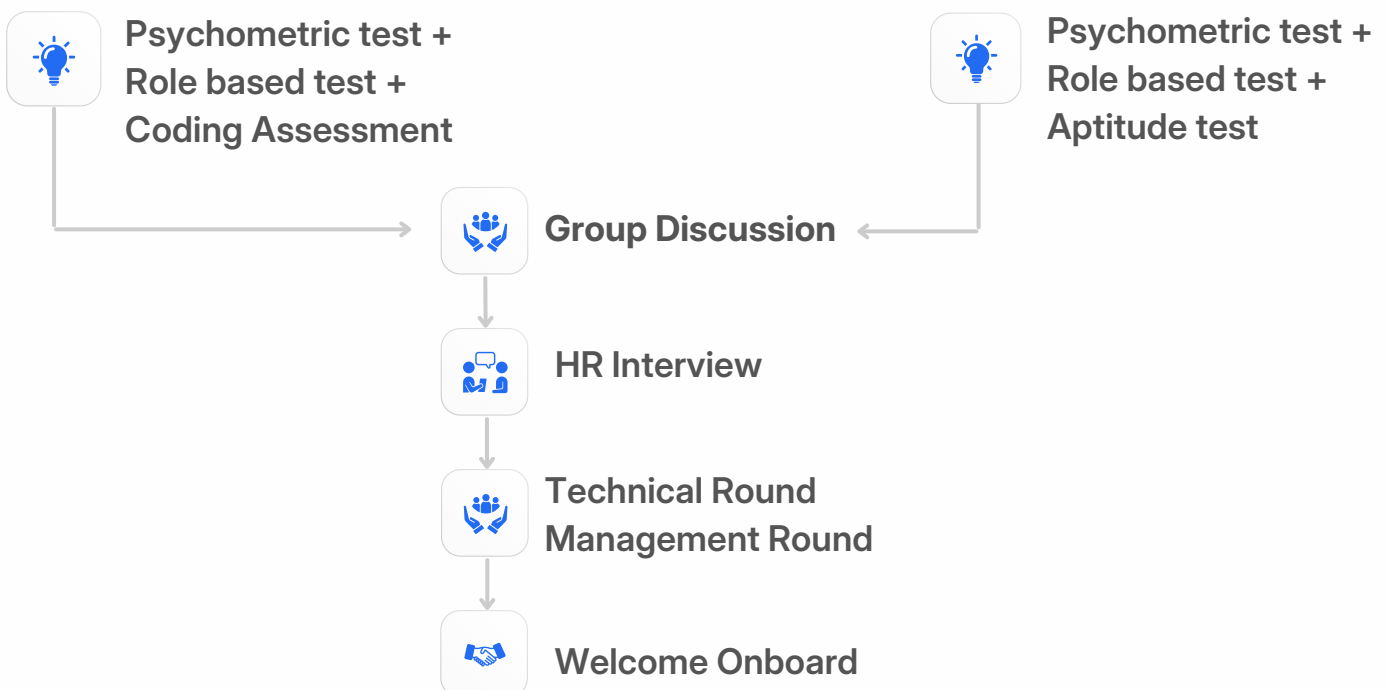

Relinns as a growth-focused organization, practices and promotes young minds to join the organization and helps them to get the necessary industry exposure that future professionals need.

The company offers an employment opportunity to the prospective candidate who goes through the selection process and gets selected. Every student or candidate has to go through the selection process which is as follows:

Technical Profile

Non-Technical Profile

Employment FAQ

● ***What is the joining process once I get selected?***

The candidate has to get a request letter from the college for employment at Relinns. Once we receive an employment request letter, the candidate will be offered a Letter of Intent as a confirmation from the company side.

● ***What if I do not receive a confirmation call for the employment within 2-working days of the final interview?***

- In case the candidate does not get any confirmation call within 2-working days of the interview, then he/she should start exploring other relevant opportunities in the job market
- Based on the feedback from the interviewers the Candidate may be kept on the waiting list
- The company strongly believes that every candidate is capable and skilled enough. However, job profile-candidate fit is as important as the candidate's skills and may become a deciding factor.
- The selection of the candidate is done based on the suitability of projects/assignments available in the company
- Candidates are encouraged to apply again after 6 months if they feel that they have progressed/refined themselves considerably and are a better fit at that point in time.

● ***Can I only do an Internship/Training at Relinns?***

No, Relinns is not only offering a training period. It is an employment opportunity that consists of a 6-months training period followed by full-time engagement with a commitment of 12 months from joining the company as a trainee. If you cannot commit to 12 months, then you should not apply at Relinns.

Employment FAQ

● ***What are the eligibility criteria for the employment Offer?***

Candidates in the final year of their Bachelor's or Master's program can apply. Candidates who are pursuing a Bachelor's or Master's degree and have obtained a "No Objection Certificate" from their college to go for an employment offer can also apply.

● ***Does the company have any employment bond that I have to sign?***

No, there will not be any employment bond that Relinns will seek you to sign. Relinns believe in the freedom of its employees to choose their career path as per their wish and doesn't hold its employees bound to any such contracts. However, Relinns is not the best place for those looking for short-term engagements.

● ***When will I be considered for the Full-Time Engagement?***

After successfully completing the 6 month trainee period, accounting for any excess leave taken during training, and without any performance issues or warnings received during the training period, you will be considered for full-time engagement. The full-time engagement date will be determined as follows:

- If the completion date falls before the 15th of the month, you will be eligible for full-time engagement on the 1st of the same month next year.
- If the completion date falls after the 15th of the month, you will be eligible for full-time engagement on the 1st of the subsequent month.

Employment FAQ

● ***Can I participate in the Relinns Employment Offer remotely (Work from Home)?***

No. Relinns does not offer remote employment opportunities to employees with less than 2 years of experience.

Unless WFH/remote work is specifically discussed and agreed upon during the offer process, working from home is not considered a default benefit or employment arrangement at Relinns.

● ***How long will the training period be for this employment?***

The training period is strictly for six months. However, In case of any medical issues, the training period can be extended to a maximum of 2 months after submission of proper medical proof & and confirmation from HR on the same.

● ***How much stipend will be paid in the training period?***

We are offering INR 20,000 per month for technical & Non-technical profiles starting from the first month.

● ***What if I want to switch from one technology or domain to another one during the course of the training period?***

Usually, candidates are not allowed to switch technologies or domains during the course of the training but a case can be considered as per business requirements.

● ***Do I need to pay any advance amount or a blank cheque before joining the Relinns?***

No, candidates are not expected to pay any amount or submit blank cheques.

Employment FAQ

● ***What documents I will get from Relinns?***

Relinns will provide only two documents: one before joining, which is the Letter of Intent (LOI), and the other is the Internship Completion Certificate, but only after successfully completing the 12-month engagement with the company from the date of joining as an intern. If your college requires any additional documents as per the curriculum, such requests can only be accommodated based on email requests from college authorities. Please ensure that you inform HR about such a request before your joining date.

● ***Do I need to submit any documents for the training period?***

The candidate has to get a request letter from the college for employment at Relinns. Once we receive an Employment request letter, the candidate will be offered the Letter of Intent for Employment at Relinns. On the date of joining, a candidate will be requested to get all documents as per the joining email for verification purposes & and need to submit one original certificate 10th or 12th Class which will be returned after successful completion of 6- months from the date of joining as a full-time employees.

● ***What are the working hours at Relinns?***

The company follows a 9-hour workday structure, including a one-hour lunch break, and requires full-time employees to work on alternate Saturdays. However, WFH may be offered on working Saturdays for eligible full-time employees, as per company policy and business requirements.

If your primary focus is strict adherence to working hours and is not aligned with our work culture, which emphasizes continuous learning, skill enhancement, and professional growth, Relinns may not be the ideal fit for your career aspirations. At Relinns, we are committed to hiring individuals who are driven to build their careers, continuously develop their skills, and contribute effectively to our team and mission.

Employment FAQ

● ***What if I want to take a vacation during my Employment period?***

You are free to plan your vacations during your training period. However, if you take more than 6 days of leave, your training period will get extended by the days of vacation you take.

Your appraisal will be affected and the retention bonus transfer if committed will be extended in case an employee is on leave for more than 10 days in a calendar apart from the allowed leaves quota or if 10 continuous leaves are taken. For example, in the case of an annual appraisal commitment, the new date of successful completion of one (1) year will be calculated based on the number of leaves taken from the date of one (1) year of successful/continuous completion.

● ***How many leaves will be provided during the training period?***

The company allows you to take one leave per month, provided that it is approved by the Reporting Manager and HR. Any leave taken without approval, whether through email or the company's Leave Management system, will be considered as unapproved and may be treated as a case of absconding, leading to disciplinary actions. Taking extra leaves will result in an extension of the internship period.

However, in the case of a medical issue with relevant documentation, the internship may be extended by up to 1 month. If there are severe medical issues, the training period can be extended to a maximum of 2 months upon submission of proper medical proof and confirmation from HR. Failure to submit the required medical proof within the stipulated timeframe may result in termination.

Employment FAQ

● ***What if I want to leave the company?***

Relinns is not the best place for those who are looking for engagement for short period and have plans for higher studies, govt jobs, shift to abroad, or joining a family business.

Candidates who leave within the training period or after working for a few months before completing the 12 months from DOJ with the company will not be eligible for a training completion certificate, will have to service a 30-day notice period, and will have to pay Relinns INR 40,000 per month to the company for the time spent during the training; as a penalty to cover the cost of training spent by the company and to get relieved from the company with proper documents

● ***What if I don't want to pay INR 40,000/- per month as training cost?***

Candidates who leave before 12 months without paying Relinns INR 40,000 per month to the company for the time spent during the training; as a penalty to cover the cost of training spent by the company will be considered as an absconding case which will be informed to the college authorities and relevant industry forums may affect his/her further engagement in the industry and will be blacklisted by Relinns. The company will pursue legal action to recover the training cost.

● ***In which case I will be requested to leave Relinns?***

In case of any misconduct, failure to comply with company policies, or not being able to meet the expected performance standards, Relinns has complete authority to discard your candidature for employment. Furthermore, the candidate will not be eligible to receive the training completion certificate and only a full and final mail will be sent.

Employment FAQ

● ***In which case I should not apply at Relinns?***

If any of the following statements apply to you, it may be advisable not to apply at Relinns:

- If you are only looking for a 6-month internship and have plans to leave after the 6-month internship period.
- If you are only looking for leisure time and not actively seeking opportunities for learning and career development.
- If you are not committed to completing a minimum of 12 months from the date of joining as an intern with the company.
- If you are only looking for part-time involvement and cannot commit to giving 100% focus while engaging with the company.

Relinns values commitment, dedication, and a genuine interest in learning and building a career, so it's important to align with these expectations before applying.

● ***How I can be the best fit for Relinns?***

Relinns believes in Long Term Association & is interested in those looking for a high learning environment, excellent career growth opportunities, mentorship & guidance oriented work environment. Hence, if someone is looking for leisure time at the workplace is not recommended.

Web Developer

About the Role

As a MEAN/MERN (Web) Developer, you will join our Product Division, contributing to the development of dynamic web applications for multiple global clients. You will work with cross-functional teams to design, build, and deploy scalable web applications using modern JavaScript frameworks and backend technologies. This position is ideal for freshers eager to start their career in full-stack development.

What You Need for this Position

- Education: Bachelor's degree in Computer Science, IT, or a related field.
- Technical Skills:
 - Strong understanding of JavaScript, HTML5, CSS3, and ES6+ concepts.
 - Knowledge of at least one frontend framework: Angular or React.js.
 - Familiarity with backend development using Node.js and Express.js.
 - Basic understanding of MongoDB or other NoSQL databases.
 - Knowledge of RESTful API integration and version control systems like Git/GitLab.
 - Awareness of responsive and cross-browser compatible design principles.
- Soft Skills:
 - Excellent problem-solving and analytical thinking.
 - Willingness to learn, adapt, and collaborate in a team environment.
 - Strong communication and time-management skills.

What You Will Be Doing

- Collaborate with design and backend teams to build scalable web applications.
- Develop and maintain frontend and backend components using MEAN/MERN stack.
- Write clean, maintainable, and efficient code following best practices.
- Integrate APIs and third-party services into web platforms.
- Perform debugging, testing, and documentation of application modules.
- Stay updated with emerging web technologies and tools.
- Support HR and Operations teams with technical queries when needed.
- Perform any additional tasks assigned by the company as deemed necessary.

Quality Assurance

About the Role

We are looking for an enthusiastic quality assurance candidate who is passionate about pushing mobile and technologies to the limits, dedicated to the craft, and writes code that he/she is proud of and can hit the ground running. Candidate must be willing to work with our team of talented engineers and testers to test and build the next generation of applications.

What You Need for this Position

- Students pursuing B.tech/BE/MS degree in Computer Science, Engineering, or a related subject
- Basic programming knowledge of Manual Testing
- Must have passion for research, to learn and grow
- Must be self-motivated and have the ability to perform under pressure
- Must be available for full time (in-office) Employment

What You Will Be Doing

- Understand business processes and client requirements for the project
- Create detailed, comprehensive, and well-structured test plans and test cases
- Identify, record, document thoroughly, and track bugs
- Estimate, prioritize, plan and coordinate testing activities
- Develop and apply testing processes for new and existing products to meet client needs
- Liaise with internal teams (developers and product managers) to understand system requirements
- Perform both manual & automation testing and Investigate automation test failures.
- Work closely with development teams to improve test coverage & quality and assist to resolve issues identified during testing
- Hands-on ability to automate repeated tasks
- Preparing the status report of testing activities
- Updating project managers regularly about the progress of testing activities
- Meet departmental goals and define key performance indicators (KPIs)
- Other duties as assigned

JOB DESCRIPTION

AI Engineer

About the Role

As an AI Engineer Intern, you will work closely with our AI and product development teams to research, design, and build intelligent automation systems that power our chatbot solutions. This internship offers a great opportunity to gain hands-on experience in applied machine learning, NLP, and AI integrations while contributing to real-world projects.

What You Need for this Position

- Education: Pursuing or recently completed a degree in Computer Science, Artificial Intelligence, Data Science, or a related field.
- Experience: Freshers (No prior experience required; relevant project or coursework is a plus).
- Technical Skills: Basic understanding of Python and AI/ML frameworks such as TensorFlow, PyTorch, or scikit-learn.
- Familiarity with Natural Language Processing (NLP) concepts and tools like spaCy, NLTK, or Transformers.
- Exposure to APIs and basic understanding of RESTful services.
- Understanding of data preprocessing, model training, evaluation techniques and AI agents.
- Soft Skills: Eagerness to learn, attention to detail, problem-solving mindset, and effective communication.

What You Will Be Doing

- Assist in training, fine-tuning, and deploying AI/ML models for chatbot automation.
- Work on data preparation and annotation to improve model accuracy.
- Experiment with prompt engineering and LLM integrations (OpenAI, Llama, Claude).
- Collaborate with the Backend and Product Teams to integrate AI models into production systems.
- Research emerging AI trends and suggest ways to enhance chatbot intelligence.
- Participate in code reviews, documentation, and brainstorming sessions.
- Perform additional responsibilities as the company finds deemed fit based on requirements.

Business Development

About the Role

As a BD Intern, you will be an integral part of our growth team, assisting in lead generation, client interaction, and product demonstrations. You'll gain hands-on exposure to the SaaS sales cycle, from prospecting to closure, while developing your communication and analytical skills. Exceptional performers will be offered a Pre-Placement Offer (PPO) upon successful completion of the internship.

What You Need for this Position

- Education: Bachelor's degree in Business Administration, Marketing, Commerce, or a related field (pursuing or recently graduated).
- Experience: Freshers are welcome.
- Skills & Knowledge: Excellent communication and interpersonal skills.
- Strong interest in B2B and SaaS sales.
- Basic understanding of CRM tools (like HubSpot, Zoho, or Pipedrive) is a plus.
- Ability to quickly grasp and explain technical concepts in simple terms.
- Good organisational and follow-up skills.
- Proficiency in written and spoken English.
- Team player with the ability to collaborate effectively across departments
- Curious mindset with a problem-solving attitude and a passion for exploring new tools.
- Soft Skills: Self-motivated, confident, eager to learn, and able to work in a fast-paced environment.

What You Will Be Doing

- Assist in lead generation, qualification, and outreach through calls, emails, and social media.
- Conduct product demos and presentations for prospective clients.
- Collaborate with the Marketing Team to align on campaigns and target audiences.
- Maintain and update lead details in CRM tools.
- Support the Sales Team in proposal preparation and deal closure.
- Gather and document customer feedback for product improvement.
- Participate in team meetings and strategy discussions.
- Handle any additional responsibilities as assigned, including supporting business development or onboarding activities.

DIGITAL MARKETING

About the Role

We are looking for an enthusiastic trainee who is passionate to design, implement, and monitor social media campaigns, Search Engine Optimization campaigns. Someone who can collaborate with other team members to develop marketing strategies. Who can become an integral part of the team, making every problem of the platform a problem of their own, and solving them accordingly? This will be an exciting chance to be a part of a fast-growing and dynamic team. The candidate will gain valuable work experience within a lively office environment, working alongside the marketing managers.

What You Need for this Position

- Education: Bachelor's in Marketing, Communications, Business Administration, or equivalent experience in digital marketing practices.
- Technical Skills:
- Familiarity with digital marketing tools and platforms such as Google Analytics, SEO best practices, and social media strategies.
- Basic understanding of content management systems (CMS) and HTML/CSS for web content updates.
- Ability to leverage AI and automation tools for tasks like data analysis, report generation, content creation, process automation, and research.
- Soft Skills:
- Strong communication and interpersonal skills.
- Ability to collaborate effectively with cross-functional teams.
- Creative thinking and problem-solving abilities.
- Attention to detail and a proactive approach to tasks.

What You Will Be Doing

- Assist in creating and implementing digital marketing strategies across various platforms to enhance brand visibility and engagement.
- Collaborate with the Product, Engineering, and Customer Success teams to align marketing efforts with business objectives.
- Support the development and execution of content marketing plans including blogs, social media posts, and email campaigns.
- Analyze digital marketing analytics reports and share insights with the team to improve marketing performance.
- Stay updated with the latest trends and best practices in digital marketing and apply them to ongoing projects.

Content Writer

About the Role

As a Content Writer Intern, you will work closely with the marketing, SEO, product, and business teams to create engaging, informative, and high-quality content for both Relinns Technologies and its products. This is an excellent opportunity for a fresher who wants to build practical experience in content writing, digital marketing, SEO, and technology-focused content.

You will get hands-on exposure to creating content for websites, blogs, social media, product pages, and other marketing initiatives while learning how content contributes to brand visibility and business growth.

What You Need for this Position

- Education: Bachelor's degree or pursuing a degree in English, Journalism, Mass Communication, Marketing, or a related field.
- Writing Skills: Strong English communication, grammar, research, and content-writing skills.
- SEO & Tools: Basic understanding of SEO, keyword research, Google Docs/MS Word; knowledge of WordPress and AI tools is a plus.
- Soft Skills: Creative mindset, attention to detail, willingness to learn, ability to accept feedback, and meet deadlines.

What You Will Be Doing

- Create blogs, website content, articles, product descriptions, and social media content.
- Research industry trends, competitors, keywords, and relevant topics.
- Assist with SEO, keyword research, and content optimization.
- Proofread and edit content for grammar, accuracy, and readability.
- Collaborate with marketing and product teams on content requirements.
- Create content for Relinns Technologies, BotPenguin, and other initiatives.
- Repurpose content for different marketing and social media channels.
- Use AI and productivity tools to support research and content creation.
- Stay updated with content, SEO, AI, and digital marketing trends.
- Support other teams with content-related requirements when needed.

JOB DESCRIPTION

Product Management

About the Role

As a Product Management Intern, you will work closely with the Product Managers, Engineering, Design, and Customer Success teams to help build and improve BotPenguin's AI-powered chatbot and Agents platform. You will gain hands-on exposure to the complete product lifecycle, from understanding customer problems and analyzing requirements to assisting with feature planning, testing, documentation, and product improvements.

What You Need for this Position

- Pursuing or completed Bachelor's degree in Management, Business, Computer Science, Engineering, or related field.
- Strong analytical and problem-solving skills.
- Good communication and documentation skills.
- Basic understanding of Product Management and SaaS products.
- Familiarity with Jira, Notion, or similar tools is a plus.
- Curious, proactive, detail-oriented, and eager to learn.

What You Will Be Doing

- Assist with product research, competitor analysis, and customer feedback.
- Help create user stories, requirements, and product documentation.
- Coordinate with Engineering and Design teams on feature development.
- Support product testing and bug identification.
- Track product metrics and suggest improvements.
- Assist with product releases and documentation.
- Work with Customer Success and Operations teams to identify product opportunities.
- Take ownership of assigned product-related tasks.

JOB DESCRIPTION

Graphic Design

About the Role

As a Graphic Design Intern, you will work closely with our marketing, product, and creative teams to create engaging visual content for both Relinns Technologies and BotPenguin. You will get hands-on experience working on digital creatives, social media graphics, marketing materials, presentations, website assets, and other visual communication requirements.

What You Need for this Position

- Pursuing or recently completed a degree/diploma in Graphic Design, Visual Communication, Fine Arts, or a related field.
- Strong interest in graphic design, branding, and visual communication.
- Basic understanding of color theory, typography, composition, spacing, and visual hierarchy.
- Familiarity with Photoshop, Illustrator, Figma, Canva, or similar design tools.
- Creative mindset with strong attention to detail.
- Ability to understand creative briefs and translate ideas into engaging designs.
- Willingness to learn new tools, techniques, and design trends.
- Good communication and collaboration skills.
- A design portfolio is an added advantage.

What You Will Be Doing

- Create social media creatives, banners, promotional graphics, and marketing assets.
- Design visuals for websites, landing pages, blogs, emails, and product promotions.
- Support branding and creative requirements for Relinns and BotPenguin.
- Assist with presentations, brochures, internal communications, and other marketing materials.
- Work with Marketing and Product teams to understand requirements and deliver designs on time.
- Develop creative concepts and make revisions based on feedback.
- Ensure consistency with brand guidelines, colors, typography, and visual identity.
- Adapt creatives for different platforms and formats.
- Maintain organized design files, templates, and reusable assets.
- Stay updated with design trends and social media formats.
- Support HR and Operations with design requirements such as recruitment creatives, announcements, and event materials.

Project Management

About the Role

As a Project Management Intern, you will work closely with our Project Managers, Technical Teams, and Clients to plan, track, and deliver software projects efficiently. This internship provides a hands-on opportunity to learn about project coordination, communication management, Agile methodologies, and cross-functional collaboration in a fast-paced tech environment.

Outstanding interns will be considered for a Pre-Placement Offer (PPO) based on performance and organizational fit.

What You Need for this Position

- Education: Pursuing or recently completed a degree in Management, Computer Science, IT, or related disciplines.
- Experience: Fresher (No prior experience required; academic or freelance project experience is a plus).
- Skills & Competencies: Strong organizational and multitasking skills.
- Basic understanding of Agile/Scrum methodologies and software development lifecycle (SDLC).
- Familiarity with project tracking tools like Notion, Trello, Jira, or Asana.
- Good communication, documentation, and stakeholder management skills.
- Ability to collaborate effectively with cross-functional teams.
- Soft Skills: Proactive attitude, analytical thinking, problem-solving mindset, and eagerness to learn project delivery practices.

What You Will Be Doing

- Assist Project Managers in planning, tracking, and monitoring ongoing projects.
- Participate in daily stand-ups, sprint reviews, and retrospectives.
- Coordinate between technical, design, and product teams to ensure smooth project execution.
- Help prepare project documentation, timelines, and reports.
- Track deliverables and ensure deadlines are met with quality standards.
- Communicate progress, blockers, and updates to relevant stakeholders.
- Perform additional responsibilities as the company finds deemed fit, including assisting HR or Operations teams with tech-related coordination.

Why join Relinns?

- ✓ Work on live projects during training
- ✓ Thrive in a transparent & collaborative environment
- ✓ Build both technical and soft skills
- ✓ Receive support & mentorship from seniors
- ✓ Join a culture focused on learning & continuous improvement
- ✓ Access our training portal with curated courses
- ✓ Learn and leverage AI tools to enhance productivity
- ✓ Get hands-on experience with industry platforms like HubSpot, Keka, and other department tools
- ✓ Exposure to cross-functional teams and real business scenarios
- ✓ Opportunity to participate in innovation initiatives and problem-solving challenges
- ✓ Recognition programs for outstanding contributions

Testimonials & Success Stories

★★★★★ (5- Star Rating)

I have Interned with Relinns Technologies as a Summer Intern for 5 months. The experience and learning that I had with the company were exemplary. I worked as a part of the marketing team and got great exposure even in the restricted mobility of 5 months. I was constantly guided and mentored on my tasks and received critical feedback wherever required which further strengthened my knowledge. I also got the opportunity to work on a variety of assignments which helped me gather some insights about the marketing practices being employed in today's world!

- Digital Marketing Intern

★★★★★ (5- Star Rating)

I like the way company preferred freshers over experienced & invest on their trainings. I also started my career with the company as an Intern then promoted to Full-Time Employee after 6-months. Company gave me opportunity to work directly with the client in the 4th month of my training. The work culture is good and management & HR take care of the issues & the happiness of everyone. Company takes anonymous feedbacks as well which help employees to share their concerns openly

- Associate Software Engineer

★★★★★ (5- Star Rating)

The best part about Relinns that you may hear from every employee who is working or has worked for the company is its work culture. As a beginner you will be around people who are very supportive and that makes your half of the journey very easy.

-Digital Marketing Intern

★★★★★ (5- Star Rating)

*1. Huge learning opportunity for those who really want to grow and experience responsibilities and ownership first-hand.
2. Great mentors and team leaders.*

- Project Manager

★★★★★ (5- Star Rating)

From day one, I had the opportunity to work on real-world projects with great responsibility and autonomy. The leadership is approachable and supportive, and the team culture promotes collaboration and continuous improvement. Whether you're a fresher or an experienced developer, you'll always find mentors around who are eager to guide you. What I appreciate the most is the emphasis on upskilling, ownership, and exploring new technologies. The challenges here have helped me grow technically and take on leadership responsibilities over time.

-Senior Software Engineer

Testimonials & Success Stories

★★★★★ (5- Star Rating)

I have been working at this company for the past 3 years, including completing my 6-month internship here, and it has been an amazing journey

The work culture is very supportive and collaborative, which makes it a great place to build both technical and soft skills. I started my career here and gained hands-on experience in MEAN and MERN stack development, which has helped me grow into a well-rounded developer. For anyone looking to start or advance their career in software development, I highly recommend this company.

- Senior Software Engineer

★★★★★ (5- Star Rating)

The culture at Relinns is built on the values of integrity, collaboration, and transparency. The team members are really helpful and supportive, fostering a positive work environment. Leadership encourages open communication, making employees feel valued. The company also emphasizes work-life balance and continuous learning, which makes it a great place to grow professionally.

- HR Intern

★★★★★ (5- Star Rating)

Working at Relinns was both fulfilling and stimulating, marked by engaging in innovative projects and thriving within a collaborative team environment. It provided ample opportunities for professional growth and creativity, where every day brought new challenges and learning experiences. The supportive atmosphere and shared commitment to excellence made it a truly enriching place to work.

- Marketing Intern

★★★★★ (5- Star Rating)

Relinns Technologies is a great company to work with. There is a lot to learn here, and every day brings new opportunities to grow. The seniors are very supportive and always ready to help. The learning environment is very positive, and the colleagues are friendly and cooperative. The overall work culture is excellent, making it a perfect place for both freshers and experienced professionals. I am really happy to be a part of this team.

-Software Engineer

★★★★★ (5- Star Rating)

The organisation has a supportive and collaborative environment, with helpful and understanding colleagues. The weekly fun activities help us to get know each other better. Additionally, people are appreciated for their good work and receive a token of appreciation.

- Software Engineer Trainee

★★★★★ (5- Star Rating)

Learning environment here is the best, because every one is very helpful that they believe in share what they hear.

- Digital Marketing Executive
